RE: REACH COMPLIANCE - GENERAL PLATING LLC, ROCHESTER, NY

General Plating LLC, a metal finishing job shop, provides various finishes to metal parts according to customer specifications. We have reviewed our REACH obligations and have determined that the products we supply our customers are considered Articles under REACH. Therefore we are aware that our customers' REACH obligations depend on the presence and concentration of Substances of Very High Concern (SVHC) within articles supplied to the EU. To date no SVHCs are present in the finishes we provide to parts supplied to us by customers. Our intention is to complete a thorough review for the presence and concentrations of SVHCs once they are listed by ECHA.

We hereby declare that the items listed below have been manufactured in compliance with the EU REACH (Registration, Evaluation, Authorization of Chemicals) directive on the restriction of the use of SVHC (Substances of Very High Concern), last updated 06/15/2015.

General Plating's REACH point of contact is:
